

ACTION PLAN

- Formalize R&I projects in connection with the local ecosystem
- Embody the research results in the teaching at all learning levels
- Revitalise the rural and mountain areas through life-long learning and entrepreneurship

THE GOAL

Contribute to research and sustainable development in rural and mountain areas.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement n°101035810

UNITA

TORINO. SUMMER SCHOOL 2022

MAIN OBJECTIVES

Enhance the value of the natural resources, develop circular economy networks (including bio-economy), link different economic activities (agriculture, tourism, industry and crafts), promote the richness of the cultural and linguistic heritage, and optimize the relationships between the different actors of each ecosystem.

IMPLEMENTATIONS DURING PHASE 1

- Research cartography:
 - 659 online projects (327 in Culture Heritage, 194 in Circular Economy, 138 in Renewable Energy)
- UNITA Weekly Talks:
 - 30 online talks
- Thematic schools:
 - 15 short training programs (146 participants)
- Internships:
 - 22 positions disseminated within the Alliance
- Cotutelle PhD Thesis:
 - 4 grants for 3 years full salary in the Alliance
- MicroCredentials:
 - 9 Micro Credentials produced by the Alliance in its 3 thematic areas : 6 for Bachelor Students and 3 for PhD Students

3 HUBS FOCUSING ON 3 MAIN THEMATIC AREAS

- Circular Economy
 - networking, bio-economy and the opening-up of economies

- Cultural Heritage
 - enhancement of the heritage and identity of the territories

- Renewable Energy
 - energy transition and resource management

Extend the coverage in the long-term to all the thematic areas that can be addressed through the coordinated collaboration of all public and private actors, strengthen the links between education and R&I, and promote the societal engagement of staff and students as well as their entrepreneurial competences.
